PROFILE

I am a graduate of Jember University, Faculty of Computer Science, majoring in Information Technology with a GPA of 3.72. I have a strong passion for user experience, interface design, and digital innovation. With this interest, I have gained hands-on experience in UI/UX design, creating intuitive and user-friendly digital solutions. Additionally, my involvement in various organizations has helped me develop essential skills such as problem-solving, user research, collaboration, adaptability, and attention to detail, which are crucial in the field of design and technology.
